FEEDING TAMPA BAY

As we drift away from the Thanksgiving excitement, with this winter cold really setting in, we find ourselves enjoying these last few moments before the new year begins. In this November's chilly weather, our FBLA tigers chose to share some warmth with their community by volunteering at Feeding Tampa Bay! As a part of this event, Middleton FBLA members helped to sort out and organize food to be distributed to those who were struggling with food insecurity.

Here at Middleton, we've made it a tradition of sorts these past few years to serve the community and truly give back each and every giving season.

Krishna Chandran, our Vice President of Community Service Apprentice, helped lead the entire event. "I'm so glad I had the opportunity to lead and take part in Feeding Tampa Bay this year," she reflected. "It was a great experience, and it felt so good to help the community in a meaningful way."

It's vital that we show our dedication to the community as proud FBLA members. We hope that as years go on, we can continue to warm the hearts of those around through our acts of service and generosity.
